'Kennedy Letter' Will Give Fans News of Family

W.J.I. 3/16/67

The Kennedy Letter, a monthly newsletter on "the Kennedy phenomenon" will be published beginning in May.

Frank H. Gille, of 560 Cook Road, Detroit, Mich., publisher of technical newsletters and reference works, said the letter will put together significant and relevant material on the Kennedys and make it available for current reading and future reference.

"I was intrigued with the idea of creating a clearing house of news and original articles on the great variety of topics, directly involving or affected by the Kennedy family," Gille said. "It is so large a field, worldwide in scope, that I call it the Kennedy phenomenon."

Newsletters have been published about such historical or imaginary figures as Lincoln, Shakespeare and Sherlock Holmes, Gille said, "but I don't know of anything like this being published about living people."
